Dorian Marié

Full Stack Developer, Rails & React

*It's easy to make something simple complex, and it's hard
making something complex simple*

Experience

2020–Present **Full Stack Developper**, *Doctolib*, Paris.
Allows patients to book doctors
And doctors to manage their appointments
And more (video consultations, sharing of documents, etc.)
- Integrate video consultation into our new product (Doctolib Médecin);
- Lead for place of birth for patients;
- Virtual Printer to make it easier to upload documents for doctors;
- Talked at at least 5 tech time presentations.

2016–2017 **Backend Engineer**, *Trusted*, San Francisco.
Babysitting on-demand company.
- API for searches made by parent when they didn't find a babysitter;
- Public API for the website;
- Changes to how prices are calculated.

2013–2015 **Software Engineer**, *Bespoke Post*, New York.
E-commerce company that sends a box every month to its subscribers.
- Transitioned the whole website from desktop-only to mobile-friendly;
- Made it possible to have a hiearchy of products for complex product selection;
- Created a store to sell products individually;
- Introduced Angular.js for a complex gift card creation page.
